

Lagrangian density

$$\alpha \partial_\alpha \phi \partial^\alpha \phi$$

Added source term: $|\phi \rho$

$$\rho_{0+}^{\#1} +$$

$$\boxed{\frac{1}{\alpha k^2}}$$

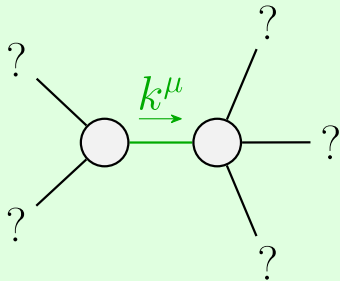

$$\rho_{0+}^{\#1}$$

$$\phi_{0+}^{\#1} +$$

$$\boxed{\alpha k^2}$$

$$\phi_{0+}^{\#1}$$

(No source constraints)

Quadratic pole

Pole residue:	$\frac{1}{\alpha} > 0$
---------------	------------------------

Polarisations:	1
----------------	---

Unitarity conditions
 $\alpha > 0$

(No massive particles)
