Particle spectrograph Wave operator and propagator

SO(3) irreps Fundamental fields

Source constraints

	$\mathcal{J}_{1}^{\#1\alpha} == 0$	$\partial_{\beta}\partial^{\alpha}\mathcal{J}^{\beta} == \partial_{\beta}\partial^{\beta}\mathcal{J}^{\alpha}$	3	
	Total constraints/gauge generators: 3			
Q	Quadratic (fr	Quadratic (free) action		
	Quadratic (II	ee) action		

Multiplicities

Massive and massless spectra

(No massless particles) (No massive particles)

Unitarity conditions

True
